African Safari - TASC Day - 20th April 2009

Back and refreshed from our Easter break, our new topic was launched ... African Safari.

KS2 worked in small mixed year groups to research and learn about their own African country. What was the country's flag? What is the capital city? Do they export any goods? These and many other questions were answered in their groups and then a poster made and a presentation put together which was then presented to the rest of KS2. Many skills were used, including some beautiful sewing - each group had the shape of their country in material, they had to sew on the name, capital city and depict rivers etc using collage. All the pieces will be sewn onto a map of the continent of Africa which should be very impressive when finished! Watch this space.
