Years 5 & 6 Tonbridge School Community Day 4th July 2012

Our year 5 and 6 pupils attended the Tonbridge School Community Day along with 27 other local primary schools. The 1,300 children who took part were offered a very wide range of activities to take part in from archery to music, triathlon to art and IT to Mandarin. Our children chose what they might like to do in advance and the programme was all prepared.

The day was set up to follow the Olympic theme and each school represented a country - Speldhurst were Spain. The children competed in different activities and, following a parade around the athletics arena by all participants at the end of all activities, a medal ceremony took place and we were delighted that some of our children collected Bronze medals for Cycling, Silver for Netball and Gold for Design.

We were looked after superbly by the students from Tonbridge School and a fantastic time was had by all. The children got to meet, compete with and get to know children from other schools and it truly represented the values of the Olympics - respect, excellence and friendship.
