KS2 Trip to Hastings
17th May 2010

What a great start to our week! KS2 enjoyed a lovely day trip to Hastings on Monday 17th May. We took the train from Tunbridge Wells through to Hastings and then walked along the seafront in lovely sunshine to visit the Shipwreck Museum and Lifeboat House.

It was amazing to discover how many shipwrecks were actually to be found off of the coast in the English Channel and to find out how much money the Royal National Lifeboat Institute (**RNLI**) need each year to be able to offer this essential service, as well as so many other fascinating facts.

We will go on to use Hastings as a case study for our work in class soon.

Here's a snapshot of our day at the coast ...
